

Citizens' Health Care Working Group

HEALTH CARE THAT WORKS FOR ALL AMERICANS

You are invited to become a part of an historic discussion taking place right now across America – where citizens like you get to tell the policymakers in Washington what you like and don't like about our nation's health care system, and what tough choices our country should make to turn it into one that works for all Americans.

And your voice does matter. Your opinions will help form a citizens' action plan that the President and Congress are required by law to consider as they work to make health care work for all Americans.

This is a chance for you to help shape national policy. It is a chance to get the facts, weigh the tradeoffs, and tell the President and Congress exactly how you want your health care system to change.

**This is a discussion that can't happen
without you. Your voice does matter.**

**The meeting is FREE and open to the public.
Register now to participate in the New York
meeting!**
